

AAA
Association of
Anaesthesia Associates

12TH ANNUAL
CONFERENCE

COVENTRY 2021
14TH OCTOBER

CLINICAL SKILLS DAY

Delegates who book to attend the Clinical Skills day will rotate through the following workshops:

Spinal Workshop with Howard Cox and Pooja Patel

A master class in spinal anaesthesia by Anaesthesia Associates for Anaesthesia Associates! This workshop will be delivered by a team from University Hospitals Birmingham, who have trained many Anaesthesia Associates in delivering spinal anaesthesia.

This workshop will cover the relevant anatomy, physiology, pharmacology and techniques for delivering spinal anaesthesia.

Regional Anaesthesia Workshop with Martin Minich and Christopher Dewsbury

This master class will be delivered by the expert Anaesthesia Associates from University Hospital Coventry and Warwickshire who have a national reputation for training Anaesthesia Associates in the art of regional anaesthesia for over 10 years.

The workshop will cover a range of subjects such as "knobology", technique and anatomy.

Major Trauma Workshop with Laura May and Andrew Kelly

A workshop that always receives excellent feedback, this is a walkthrough scenario which is often given to advanced anaesthetic trainees on the care of a patient with major injuries.

The workshop will be delivered by a team of experts from the University Hospitals Coventry and Warwickshire; one of busiest major trauma centres in the UK.

Difficult Airway Workshop with Umair Ansari

This is a master class in difficult airways, delivered by a team of experts including Professor Cyprian Mendonca from University Hospital Coventry, who have a national and international reputation the management of difficult airways and research.

This workshop will cover a range of scenarios and strategies, with a chance to use an array of airway equipment.

Timetable

Registration: 12:30 – 13:00
